Objective

Motivated B.Tech CSE student with a strong foundation in programming, data structures & algorithms, web development, and machine learning. Passionate about building real-world projects and full-stack applications, with hands-on experience in Python, React, and Streamlit.

Education

B.Tech in Computer Science & Engineering – 2nd Year, 2nd Semester with 9.3 Average CGPA

Relevant Coursework: Data Structures & Algorithms, Programming, Web Development

Technical Skills

- **Programming Languages:** C , Java, Python
- **Web Development:** HTML, CSS, React.js, Tailwind CSS
- **Data Science & ML:** NumPy, pandas, matplotlib, seaborn, scikit-learn, ML models
- **Tools & Frameworks:** Streamlit, OpenCV, Git, APIs
- **Other Skills:** Problem-solving, debugging, code optimization, technical explanations

Projects

Web App Projects

- **Real-Time Weather Web App:** Streamlit & OpenWeatherMap API; login, weather history tracking, and temperature trend visualizations.
- **Chat Bot using Gemini API:** Backend AI logic using Gemini API and interface built with Streamlit for interactive chat.

Front-End Projects

- **Portfolio Website:** Implemented responsive UI, animations, and dynamic sections using React.js and Tailwind CSS.
- **Login Page with Form Validation:** Frontend website with dark mode and light mode features; includes form validation for username, password, and email inputs.

Data Science Projects

- **House Price Prediction:** ML models (Linear Regression, Random Forest) to predict house prices with data visualization and Streamlit deployment.

Machine Learning / AI Projects

- **Face Detection & Recognition for Attendance:** OpenCV & face_recognition module; automates attendance marking with real-time capture and CSV logging.
- **Resume Screening System:** NLP-based; TF-IDF vectorization and classification models to rank candidates automatically.

Strengths

- Strong understanding of DSA concepts and practical coding
- Builds functional, real-time projects
- Quick learner, self-motivated, solution-oriented
- Able to explain complex technical concepts clearly

Interests

- Full-stack development
- Machine learning & AI
- Competitive programming
- Web development & UI/UX

Languages

- English (Fluent)
- Telugu (Native)
